SECTION III - EXPERIENCE REQUIREMENTS:

- NO EXPERIENCE IS REQUIRED FOR THE APPRENTICE LEVEL.
- All applicants for the licensed or certified level must report real estate appraisal experience.
- The appraisal experience of applicants for the LICENSED LEVEL (1000 hours) must have been acquired OVER a minimum period of 6-months.
- The appraisal experience of applicants for the CERTIFIED RESIDENTIAL LEVEL (1500 hours) must have been acquired OVER a minimum period of 12-months.
- The appraisal experience of applicants for the CERTIFIED GENERAL LEVEL (3000 hours) must have been acquired OVER a minimum period of 18-months. At least 50% must be non-residential appraisal experience.
- All appraisal work claimed for experience must be obtained after January 30, 1989.
- There need not be a client in order for an appraisal to qualify for experience. Experience gained for work without a traditional client can meet any portion of the total experience requirement.
- A Practical Applications of Real Estate Appraisal (PAREA) program approved by the Appraisal Qualification Board may serve as an alternative to the traditional Supervisor/Trainee experience model to gain qualifying experience. PAREA utilizes simulated experience training. PAREA can replace up to 100% of the required experience hours for licensure or certified residential. In addition, PAREA can replace the required residential experience hours for certified general.
- All appraisal work claimed for experience must be completed in compliance with USPAP. An applicant's experience must be in appraisal work conforming to Standards 1, 2, 3, 4, 5, and/or 6, where the appraiser demonstrates proficiency in appraisal principles, methodology, procedures, and reporting conclusions.
- Applicants gaining experience through the traditional experience model must complete an Experience Log similar to the Log found on the last page.

Experience gained through the traditional experience model:

Adequate experience gained through traditional experience should be determined by the actual hours spent on an assignment, subject to a maximum established by the board.

(1) Maximum hours are based on the types of appraisals performed and the types of properties appraised.

(2) Types of appraisals performed include standard appraisal, review appraisal, and condemnation appraisal.

- (a) A standard appraisal is the process of developing an appraisal using those methods commonly accepted by real estate appraisers as constituting the appraisal process and preparing a written appraisal report or file memorandum describing the appraisal and reporting the estimate of value. The appraisal process consists of an analysis of factors that affect value, definition of the problem, gathering and analyzing data, applying the appropriate value approaches and methodology, arriving at an opinion of value, and correctly reporting the opinion of value in compliance with the uniform standards of professional appraisal practice.
- (b) A review appraisal is the process of critically reviewing an appraisal report prepared by another appraiser and preparing a separate written report or file memorandum setting forth the results of the review process. The review appraiser reviews the report and forms an opinion as to the adequacy of the report, the appropriateness of the methods used by the appraiser, and the reasonableness of the appraiser's conclusions. A review appraiser may or may not perform a field review. A field review includes inspecting the subject and comparables to verify data, to determine the appropriateness of the comparables selected and adjustments made, and to assist in determining the reasonableness of the value estimate.

Review appraisal experience must conform to standard three of the uniform standards of professional appraisal practice. Review appraisal experience should be given credit to the extent that it demonstrates proficiency in appraisal principles, techniques, or skills used by appraisers practicing under applicable uniform standards of professional appraisal practice standards.

(c) A condemnation appraisal is an appraisal of real property for condemnation purposes, including situations where a partial taking is involved and the appraiser must develop both a before taking value estimate and an after taking value estimate. The appraiser uses those methods commonly accepted by real estate appraisers as constituting the appraisal process including a field inspection and preparation of a written appraisal report or file memorandum describing the appraisal and reporting the before and after value estimates.

(3) Types of property appraised may include the following:

- 1) **RESIDENTIAL SINGLE FAMILY OR MULTI-FAMILY (2-4 UNITS)**
- 2) **VACANT LOT (1-4 Units)**
- 3) **FARM** (homestead-less than 100 acres).
- 4) **LAND** may include farms of one hundred acres [40.47 hectares] or more in size, undeveloped tracts, residential multifamily sites, commercial sites, industrial sites, land in transition, etc.
- 5) **RESIDENTIAL MULTI-FAMILY (5-12 UNITS)** may include apartments, condominiums, townhouses, and mobile home parks.
- 6) **RESIDENTIAL MULTI-FAMILY (13+ UNITS)** may include apartments, condominiums, townhouses, mobile home parks.
- 7) **COMMERCIAL SINGLE-TENANT** may include office building, retail store, restaurant, service station, bank, daycare center, etc.
- 8) **COMMERCIAL MULTI-TENANT** may include office building, shopping center, hotel, etc.
- 9) **INDUSTRIAL** may include warehouse, manufacturing plant, etc.
- 10) **INSTITUTIONAL** may include rest home, nursing home, hospital, school, church, government building, etc.

If you have appraised property not listed above, describe on a separate sheet the properties appraised in sufficient detail to enable the Appraiser Board to determine the proper amount of credit which may be awarded.

(4) The number of allowable hours assigned for each appraisal type are assigned by the Board.

The Experience chart on the following page reflects the allowable hours approved by the Board for the various types of property. However, as specified in Rules, **the applicant should claim the actual hours spent completing the assignment.** Document your work file to substantiate the number of hours spent on an assignment.
